

MICRO FOCUS

We are official Micro Focus partner. Micro Focus has been the market leader and provider of distributed COBOL development tooling for nearly 40 years. Now they lead the way with Visual COBOL.

Micro Focus products focus on:

- Building: COBOL Development Suite, Silk, Caliber
- Operation: Operations Center, Vivinet, ZENworks, Enterprise Server, Reflection, Rumba
- Security: Sentinel, NetIQ Security Management Suite, Platespin Disaster, Recovery

Visual COBOL delivers the next generation of COBOL development and deployment.

It brings the productivity of modern, industry-leading integrated development environments (IDEs) to COBOL.

It has the ability to deploy key business-critical COBOL applications to Windows 7, .NET, JVM and the cloud.

Connect the old with the new.
